Consent for care

Before you can add a patient to the system you must gain their consent. Your hospital has a specific form or procedure to obtain consent from a patient for this system. If you are unaware of this internal procedure, please contact your hospital Data Protection Officer (DPO).

Meeting

Most CPMS Groups have a regular schedule for Meetings, which can be found on the ERN PaedCan website's [CPMS section](#). Below the example of the Brain Tumour Group. You will be invited to those meetings after having completed the previous steps.

The screenshot displays the ERN PaedCan website interface. The top navigation bar is orange and yellow, featuring the ERN logo, the text 'European Reference Network for rare or low prevalence complex diseases', and the sub-label 'Network Paediatric Cancer (ERN PaedCan)'. Navigation links include 'About us', 'For Patients and Families', 'For Healthcare professionals', 'News, Events & Publications', and 'Collaborations'. A search bar is located on the right. The main content area is titled 'Expert Groups in CPMS 2.0'. The 'BRAIN TUMOUR GROUP' section is highlighted in blue, listing members: Becker Susanne, Bison Brigitte, Mynarek Martin, Obrecht Denise, Riechers Regine, Rutkowski Stefan, Sönksen Marthe, and Yuan Mathias. It states the group meets weekly on Tuesday at 11.00 CET with two 20-minute slots for CPMS cases. A contact email 'ERNPaedCan@uke.de' is provided in a button. A note mentions a guide for DICOM imaging. The 'EWING SARCOMA GROUP' section is partially visible below.

The screenshot displays the CPMS 2.0 - CARE interface. The top navigation bar includes the European Union flag, the text 'CPMS 2.0 - CARE', a 'TRAINING' badge, and user information for 'Schalling Martin, ERN Clinician'. The left sidebar contains navigation links: Home, Patient Record, Add New Patient, Meetings, Supporting documents, and Advanced search.

The main content area is divided into two sections. The left section shows patient details for 'Mary Dogg 961' (P0015308), including a toggle for 'Hide personal data', a status of 'Under Discussion', and tabs for 'Details', 'Files', 'Participants', and 'History'. The 'Patient Details' section includes fields for Sex (Male), Age (2 Years - 2 Months), Record created (07 November 2025), and CPMS area and sub-area (Solid Tumour). The 'Healthcare provider details' section lists 'ERN PaedCAN' and 'Healthcare provider: St. Anna Kinderziekenhuis & St. Anna Kinderziekenhuis'.

The right section shows a 'Discussion topic' titled 'Test of patient flow'. It features three buttons: 'View topic details', 'Schedule meeting', and 'Close the discussion'. The 'Close the discussion' button is highlighted with a red box and an arrow pointing to it. Below the buttons is a large text area with the instruction 'To close a Discussion, click on this button'. At the bottom of the discussion area is a text input field with a placeholder 'Type a new message @ to mention someone' and a 'Send' button.

Close Discussion

The screenshot displays the CPMS 2.0 - CARE web application interface. The top navigation bar includes the CPMS 2.0 - CARE logo, a 'TRAINING' badge, and user information for Schalling Martin, ERN Clinician. The left sidebar contains navigation links: Home, Patient Record, Add New Patient, Meetings, Supporting docu..., and Advanced search. The main content area shows the patient record for Mary Dogg 961 (P0015308), with a status of 'Under Discussion'. The 'Details' tab is selected, showing patient details such as Sex (Male), Record created (07 November 2025), and CPMS area and sub-area (Solid Tumour). A 'Close the discussion' dialog box is open in the foreground, prompting the user to write a conclusion comment. The dialog box includes a text input field, a 'Preview outcome document' button, a 'Cancel' button, and a 'SignOff' button. The background interface also shows a 'Discussion topic' section with buttons for 'View topic details', 'Schedule meeting', and 'Close the discussion'.
