

# The ERN monitoring platform

## Important considerations regarding access to reporting platform:

- Since 2023, the SANTE Data collection platform has been used by the members of ERNs to report on two indicators (New patients and use of Orphacodes).
- Your centre should have already designated a “Reporter” for the previous monitoring exercises of 2023 and 2024. This “Reporter” will already have access to the forms in the monitoring platform.
- Only the “Reporter” has access to the forms in the platform.
- New “Reporter” rights can be requested if needed, in case the previous person no longer has these responsibilities within your centre.
- Please note that only 1 dossier per centre can be submitted.

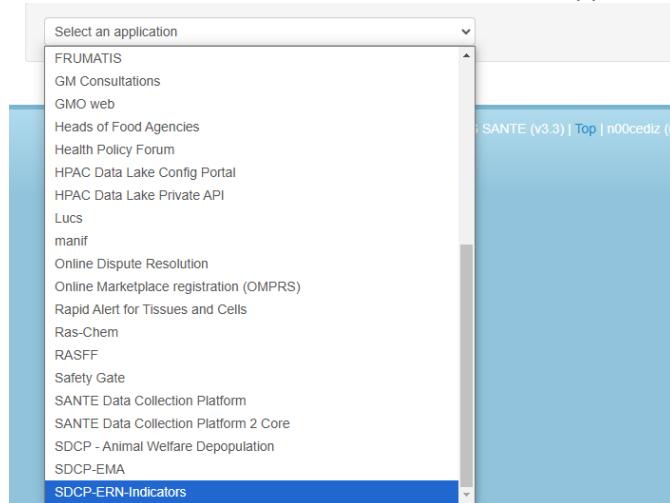

## Requesting access

Assuming the Reporter already has an EU login account.

Login to the SAAS – Authorization System: <https://webgate.ec.europa.eu/saas>

Once in the platform, the Reporter should:

### 1) Select **SDCP-ERN-INDICATORS** from the list of applications

### 2) Select **Request an access** (green button)
